CAREER OBJECTIVE

BCA graduate and Java Backend Developer with hands-on experience in Java, Spring Boot, Spring Security, Hibernate/JPA, REST APIs, JWT Authentication, and MySQL. Skilled in developing secure backend applications using MVC architecture, CRUD operations, and database integration. Proficient with AI-assisted development tools including ChatGPT, Cursor AI, GitHub Copilot, Claude AI, and Antigravity. Seeking a Java Backend Developer role to build scalable and high-performance applications.

EDUCATION

Bachelor of Computer Applications (BCA) Soundarya Group of Institutions CGPA:6.2	2021-2024
Higher secondary education Mambaram Higher Secondary School CGPA:8.2	2019-2021
SSLC Rajeev Gandhi Memorial Higher Secondary School CGPA:8.5	2018-2019

CERTIFICATIONS

- Java Backend Development Certification — Kompetenzen Technologies
- Java Full Stack Development Certification — QSpiders/JSpiders
- Leadership Certification — Udemy
- Robotics Certification — IIT Hyderabad

TRAINING & INTERNSHIP

Java Backend Development Training — Kompetenzen Technologies, Vyttila, Kochi <i>3-Month Professional Training</i>	2026
• Completed hands-on backend development training in Java, Spring Boot, Hibernate, REST APIs, and MySQL. • Developed RESTful backend applications using Spring Boot, JPA/Hibernate, and MySQL. • Built CRUD-based applications following MVC architecture and backend development best practices.	
Java Full Stack Development Training – QSpiders/JSpiders, Kochi <i>9-Month Professional Training</i>	2024–2025
• Completed comprehensive training in Core Java, Advanced Java, Spring Boot, Hibernate, HTML, CSS, JavaScript, and MySQL. • Developed full-stack web applications and gained hands-on experience in frontend and backend development. • Practiced REST API development, database integration, and object-oriented programming principles.	

TECHNICAL SKILLS

Programming: Java

Backend: Spring Boot, Spring Security, Hibernate/JPA, REST APIs, JWT Authentication

Frontend: HTML5, CSS3, Thymeleaf

Database: MySQL

Build Tools: Maven

Version Control: Git, GitHub

Testing: Postman

Concepts: MVC Architecture, Object-Oriented Programming (OOP), CRUD Operations, Dependency Injection, Exception Handling

Deployment: Vercel, Render, Railway, Netlify

AI Development Tools: ChatGPT, GitHub Copilot, Cursor AI, Claude AI, Antigravity

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability
- Time Management
- Communication Skills

EXPERIENCE

Freelance Software Developer (VSOFT TECHNOLOGIES)

2026–Present

- Designed and developed responsive websites using React.js, Next.js, HTML, CSS, and JavaScript.
- Customized websites based on client requirements and deployed applications using Vercel and Netlify.
- Managed source code using Git and GitHub.
- Leveraged AI tools including ChatGPT, Cursor AI, GitHub Copilot, Claude AI, and Antigravity to accelerate development and debugging. Portfolio

PROJECTS

Hospital Management System

Java, Spring Boot, Spring Security, Hibernate/JPA, MySQL, REST APIs, JWT Authentication, Postman

- Developed a Hospital Management System during Java Full Stack training at QSpiders/JSpiders.
- Built secure RESTful APIs using Spring Boot, Spring Security, Hibernate/JPA, JWT Authentication, and MySQL.
- Implemented CRUD operations, relational database integration, and MVC architecture for scalable backend development.

Institution Management System *Next.js, React.js, JavaScript, AI Integration*

- Developed an AI-powered institution management platform for educational content, HR management, and student administration.
- Built responsive user interfaces and integrated AI-assisted content generation.
- Implemented progress tracking, certification management, and learning workflows.

Live Demo

TURFX – Turf Booking Web Application *React.js, Node.js, Express.js, MongoDB, Tailwind CSS*

- Developed a full-stack turf booking application with slot booking and payment integration.
- Implemented secure authentication and REST API integration.
- Built backend services using Node.js, Express.js, and MongoDB.

Live Demo

GRAMAPHONE – Band Portfolio Website

- Designed and developed a responsive portfolio website for showcasing music, albums, and events.
- Built reusable React components, optimized UI performance, and deployed the project on Vercel. (Live Demo)
